

NATURAL MINERAL SALTS FOR ANIMAL HEALTH

The Authority in Potassium and Magnesium

k+s

Natural Mineral Salts for Animal Health

For the healthy development and well-being of livestock and pets their feed must meet high standards. A sufficient supply of minerals and consistently high quality of feed are primary factors for animal health and wellbeing.

Under the brand name KaSa K+S KALI offers potassium chloride and magnesium sulphate as feed ingredients. All of our high-purity KaSa-products are of natural origin and comply with the strict regulations of the EU food and feed law. After all, they are manufactured in Germany, by means of state-of-the-art technology and in compliance with the highest standards concerning quality, hygiene, packaging, storage and traceability.

Product overview

Product	Description	Certificates
KaSa[®] K99[®]	Potassium Chloride (KCl) Feed material, 52 % K	DIN EN ISO 9001 ff., GMP+ (QS recognised)
KaSa[®] Mag98[®]	Magnesium Sulphate (MgSO ₄) Feed material, 19,9 % Mg · 26,4 % S	DIN EN ISO 9001 ff., GMP+ (QS recognised)

Areas of Application

For many years, our KaSa-products have successfully been used for the production of a variety of feed for pets and livestock. With good reason: They help to supply animals with important nutrients such as potassium, chloride, magnesium and sulphur. In addition and in accordance with the EU-Eco-Regulation on animal feed, KaSa-products may also be used in organic farming.

Main areas of application – feed for:

- Pets such as dogs and cats
- Cattle
- Horses
- Sheep and goats
- Chicken
- Aquaculture

Quality Standards

For K+S KALI quality and safety of the products, and compliance with legal requirements have highest priority. We therefore always act in accordance with the strict regulations and directions of the European Union that regulate in detail all stages of production, processing and distribution of animal feed.

Continuous quality controls allow us to guarantee the consistently high quality of our products. Our modern production facilities in Germany are certified in accordance with DIN EN ISO 9001 ff., while the HACCP-system ensures compliance with

Our benefits

- High-purity products of natural origin
- Highest standards for quality and product safety, especially when compared on an international level
- Long-standing international cooperation with the feed industry
- Not only a supplier of raw materials, but a globally reliable partner
- Certified and approved in accordance with internationally accepted inspection systems
